

Aluminium tapes high temperatures type ALUTAPE HT

Pure aluminium tape, composed of 3 layers

Brand

- SUFIX

Application

- Used on ductwork to provide an airtight seal, a sure and long lasting moisture-proof and sealing-proof barrier against weather influences
- For maximum effect the surface must be clean and free of dust, moisture and other foreign contamination
- Storage in a properly ventilated room at a temperature between 16 and 27°C

Material

- Aluminium foil with an adhesive coat on one side
- 3 layers: 40 µm aluminium film, UV-resistant acrylic adhesive layer and monosiliconised white paper protective liner

Specifications

- Available in 50 or 75 mm width
- Length per roll: 50 m
- Colour: silver aluminium
- Thickness: 50µm
- Temperature resistance: -30°C + 150°C
- Apply temperature: -10°C + 40°C
- Adhesive type: UV-resistant acrylic
