Adjustable steel supply valves type BIR

Adjustable Steel air supply valves

Brand

- Cairox

Application

- For air supply in ventilation systems

Material

- Steel

Colour

- Standard colour white, RAL9010

Composition

- Steel body with adjustable core that can be opened only on 1 side, to avoid draughts (excluding mounting frame)
- Air-tight connection at the back of the grille

Mounting

- Wall or ceiling mounted, directly into round ducts
- A flange APD can be used for connection with flexible ducts

Order example

- **BIR, 100**

Explanation

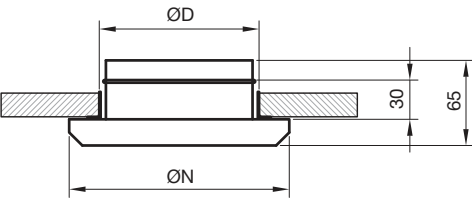

BIR = Type valve

100 = Connection diameter

Symbols and specifications

- Q = Air volume in m³/h
- Ps = Static pressure in Pa
- Lw(A) = Acoustic power in dB(A)
- r = 3, 6, 9, 12,... opening in mm between the central part and the body of the valve

Air valves

	Dimensions	
	ØD [mm]	ØN [mm]
