

- Wall mounting
- Rectangular
- Aluminium and PVC
- Grey, RAL 7015

PVC backdraught shutters type VK

Backdraught shutters for surface mounting with aluminium frame and PVC blades

Brand

- Cairox

Application

- For air exhaust in any type of installation.
- The blades will open when the shutter is exposed to overpressure. Pressure loss of 20 Pa for air speed of 2 m/s, 25 Pa for air speed of 3 m/s, and 30 Pa for airspeed of 4 m/s

Material

- Aluminium and PVC combination

Composition

- Solid frame made of aluminium, finished grey, RAL7016
- Grey PVC blades
- Up to 590 x 590 made out of 1 frame and simple blades
- From size 670 x 670 is reinforced with a central fixing bar and double row of blades

Colour

- Grey, RAL 7016

Mounting

- Mounted by invisible screws behind the blades

Order example

- **VK, 240 X 240**

Explanation

VK = Type grill

240 X 240 = Exterior size grill

Pressure loss diagram

L1 x H1 ≤ 590 x 590

L1 x H1 > 590 x 590
